

For this project you will need:

- This piece of paper
- Something to color with, like markers, crayons or colored pencils
  - Some glue or tape
- A pair of scissors (and maybe some grownup help)

Instructions:

1. Color in the outlines however you like: one outline will be an enchanted gingerbread person, and the other outline will be the person transformed back!
2. Use some scissors (ask a grownup to help if needed) to cut along the outline of the puppet
3. Glue or tape a popsicle stick, a straw, or a pencil to the back of one design, then glue the other design on top like a sandwich!
4. Enjoy! You can be a part of the show by holding your puppet up when the gingerbread people are on screen! Move them along with the puppets on screen! Flip them when (spoiler alert) the enchantment is broken! Have fun!
